

California OES Weather Threat Briefing

Friday, July 10, 2020
9:00 AM PDT

- **Day 1 (Friday):** Hot temperatures across interior southern CA may cause impacts for sensitive populations without adequate sheltering

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

07/10/20 - 07/16/20

Friday

- Hot temperatures across interior southern CA may cause impacts for sensitive populations without adequate sheltering

Saturday-Monday

- Temperatures will significantly increase this weekend across Interior and Southern Regions
- Dangerously hot conditions are expected this weekend across interior southern CA with little to no overnight recovery
 - The potential for heat related illnesses will be high, particularly for those working or participating in outdoor activities
- Elevated fire weather conditions are expected across parts of interior southern CA this weekend and into Monday

Tuesday-Thursday

- Cooler temperatures are expected, but heat risk will still be possible across southern CA for sensitive populations without adequate sheltering

CALIFORNIA WEATHER IMPACTS

Cold							

No Impacts

Minimal Impacts

Moderate Impacts

Severe Impacts

PRECIPITATION FORECAST

07/10/20 - 07/12/20

**No significant precipitation
expected across California
through the next 5 days**

Precipitation (inches)

HEAT RISK OUTLOOK

07/11/20 - 07/13/20

<https://www.wrh.noaa.gov/wrh/heatrisk/>

Saturday

Sunday

Monday

Category	Level	Meaning
Green	0	No Elevated Risk
Yellow	1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Category	Level	Meaning
Red	3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	4	Very High Risk for entire population due to long duration heat, with little to no relief overnight

OVERNIGHT LOW TEMPERATURE FORECAST

07/11/20 - 07/13/20

Saturday

Sunday

Monday

WEATHER OUTLOOK

07/15/20 - 07/23/20

6-10 Day Outlook (July 15 – July 19)

Temperatures

- Equal chances of above or below normal temperatures favored statewide except below normal temperatures favored across far northern CA, and above normal temperatures favored across far southern CA

Precipitation

- Equal chances of above or below normal precipitation statewide

8-14 Day Outlook (July 17 – July 23)

Temperatures

- Equal chances of above or below normal temperatures statewide except for above normal temperatures favored in far southern CA

Precipitation

- Equal chances of above or below normal precipitation statewide
